Antoine Monie

DIGITAL OPERATIONS & E-COMMERCE SPECIALIST

Ops · Tech · Product — shipping digital solutions that work beyond the whiteboard

PROFILE

Hybrid ops/tech profile at the crossroads of web production, e-commerce operations, and process digitalization.

I build and ship where others coordinate — multi-brand Shopify, Odoo ERP, Webflow, no-code automation, and AI-assisted development. Concrete deliverables, not decks.

I am looking for an ambitious organization where autonomy is valued, impact is visible, and where I can keep growing in an environment that genuinely inspires me.
